INSTALLATION NOTES:

1. All commercial exhibitor tents to be installed on ~~September~~ 27th-28th, 2017.
2. It would be helpful to have a representative from your company on site the day of installation to ensure the placement.
3. Tent measurements do not include space for weights and ropes to secure the tent. Pole tents require 10' of additional space beyond the dimensions of the tent. Please make sure that you have enough room for the tent you are ordering.

REMOVAL NOTES:

All tents will be taken down on Monday, October 10th, 2016. We ask that you promptly remove all items from under the tent the night prior to take down. **THE TENTS MUST BE EMPTY BY 8:00 A.M. MONDAY MORNING.** Please keep in mind that we have only one day to remove all tents as per our contract with World Dairy Expo, so we would appreciate your cooperation on this matter.

Lot Sketch: Please use the box below to communicate the orientation of your tent within your lot. Be sure to indicate adjoining booth numbers or aisles. Additional labor charges will be applied for booths that must be relocated once placed.
