SHOW YOUR COWS THAT YOU CARE

Our Barn-Grooving Solutions Keep Your Cows in Good Standing

Slippery barn floors are a common cause of injuries to cows, and can create big problems for dairy farmers. You can avoid this problem by grooving their floors to create traction. SMITH's FS351 DCS self-propelled heavy-duty scarifier is the perfect tool for creating these grooves.

It is capable of removing a path up to 16 inches wide, and can be equipped with a wide variety of cutters to create nearly any groove pattern or surface profile. The FS351 DCS also features SMITH's exclusive electronic DCS Depth Control System, which allows users to precisely adjust the cutter depth without stopping production.

- *Self-propelled with easy speed adjustment*
- *Side plate for faster drum changes*
- *Vacuum ports for dust collection*
- *Available in gasoline, electric, and propane-powered versions*
